

Nova Central School District

School Sport Code of Conduct

Student athletes registered with Nova Central School District schools cannot practice, compete or participate in any sanctioned event or activity between schools until the player, the player's parents or guardians and the player's coach read this entire document, sign and return the attached Code of Conduct Agreement to the school.

Introduction

In personal development throughout youth sports, the players, his/her parents/guardians, coaches and administrators play a critical role. To ensure that all participants work together to get the optimum benefits from sport, they all need to be on the same page regarding their roles and responsibilities. Each must understand and respect his/her relationship with the other and the commitments that are required as a member of their team.

The following Code of Conduct has been developed to aid the participants in achieving a level of behavior that will allow all concerned to maximize the benefits of youth sport development and guide the athlete in becoming a well-rounded, self confident and productive human being.

Three critical points are required to achieve a positive and healthy relationship between players, parents/guardians and coaches. They are:

1. to clearly define the roles of each participant;
2. establish rules of behavior; and,
3. ensure communications of expected conduct to all parties.

A clear understanding of these points of emphasis will help to ensure positive behavior.

Sportsmanship

A growing problem in youth sports today is the all-too common attitude that winning is everything. Nothing could be further from the truth, and Nova Central School District believes this attitude can contribute to players, coaches, and parents displaying a lack of good sportsmanship.

In any athletic contest, the competitors should do their best to try and win. After all, striving to win is a part of healthy competition. However, winning or losing is only a result -- it should not be the reason the game is played. In addition, we sometimes need to be reminded to respect opponents and officials, because without them there is no game. We need to applaud good plays by both our team and by members of the opposing team.

Everyone in the game, including the parents/guardians and spectators, should have a sense of fair play. Satisfaction for players, coaches, officials, parents/guardians and spectators should come from watching athletes playing their hardest and doing their best. There is a big difference between losing and being a loser. By the same token, a team may have the highest score in the game, but if the participants are not humble in victory, or have played without respect for their opponents, they are not winners.

Responsibilities and Standards of Behavior.

All schools are responsible for the distribution, communication and enforcement of the Rules and Regulations and the Code of Conduct of Nova Central School District. All players, parents/guardians, administrators, teachers and coaches are responsible for being familiar with and supporting these Rules and Regulations and the Code of Conduct.

Nova Central School District has approved and adopted provisions that all players, coaches, and parents/guardians are required to sign a Code of Conduct Agreement that will be kept in a team binder. The document contains an acknowledgement that the participants have read, understood and pledged to behave in accordance with the Rules and Regulations and the Code of Conduct of Nova Central School District. The District's intent is that this process will communicate the standards of behavior to all participants, and in doing so help elevate the level of the youth sport experience for all concerned.

It must be clearly understood that any player breaking any of the Rules and Regulations or violating the Code of Conduct may cause the player to be suspended from the team for a period of time or to forfeit his/her player status with any school team. Any non-teaching coach violating the Code of Conduct may be suspended from the team. Employees of Nova Central School District violating the Code may be dealt with through district policy.

Coaches Code of Conduct

As a Coach I will:

- Understand that winning is a consideration, but not the only one, nor the most important one. Care more about the development of the child than the winning of the game.

Parents/Guardian Code of Conduct

As a Parent/Guardian I will:

- Encourage my children to participate in sports, and support their desire to play their chosen sport. Children are involved in sports for their enjoyment. Make it fun.
- Encourage my child to play by the rules. Remember, children learn best by example, so applaud the good plays of both teams.
- Be respectful of and will not embarrass my child by yelling at players, coaches, officials or other parents. By showing a positive attitude toward the game and all of its participants, your child will benefit.
- Emphasize skill development and practices and how they benefit young athletes. De-emphasize games and competition in the lower age groups.
- Become familiar with the rules of the game, and support the officials. This approach will help in the development and support of the game. Any criticism of the officials only hurts the game.
